Beverly Hills, Calif.

Dear Mr. Oboler,

Thank you so much for your letter. We appreciate your interest in Phantom Mask more than we can say. Sorry we couldn't write sooner, but we were right in the middle of finals.

Nationalization is proceeding rapidly, and the results so far have been exceedingly encouraging. Among prospective chapters are those radio groups at Purdue, Northwestern, Wisconsin, Chicago, Iowa State, Illinois, Columbia, Texas, Iowa, Kentucky, and Kansas State. We are continuing to contact other similar groups.

Our purpose is to improve the standard of collegiate radio drama by encouraging experimental radio production. Through national organization we hope to achieve this purpose by facilitating an exchange of ideas.....scripts, transcriptions, ideas on production technique, and special broadcasts between chapters.

What you can do for us is this. We would like to secure your approval of this purpose and the right to use your name as an honorary national sponsor of Phantom Mask.

Though in an advisory capacity your assistance would be invaluable, we recognize the limits on your time and wish to impose on you as little as possible.

Sincerely yours,

Mildred Turner, President
